

# Filing Your August 15, 2026, As Billed Grand List with the State of Vermont

The State of Vermont will be using the VTPIE grand list data to finalize the 2026 Equalization Study which determines your annual Common Level of Appraisal and Coefficient of Dispersion. It is imperative you follow the instructions below to satisfy your August 15 filing to the state. If you have questions about any parts of this process, please reach out to your District Advisor. **Although this may seem repetitive, we recommend you follow the instructions as written to avoid errors.**

- Upload from your 2026 As Billed NEMRC Grand List to VTPIE (instructions on page 3 of this document, bear in mind these are general directions, but in this case, you will be using the As Billed Grand List) using the '**Certified to Clerk**' file type in VTPIE
- Once the status of the upload in VTPIE is 'Processed' go to your home screen and select Tax Programs>Current Use
- Verify after this upload nothing has populated in your Current Use queue for you to re-verify. You will know if your Current Use is all set because your queue will either be empty or only have applications that show 'No' in Enrolled column.
  - If there is Current Use to re-verify, you should complete all the parcels in your queue, after you have completed the reverification, and follow the 'Current Use Download to Billing' instructions on page 4 of this document. This will complete the loop for billing purposes (make sure to complete this whole process).
  - Even if you don't have Current Use to verify to ensure you have the most recent exemptions in NEMRC please follow the 'Current Use Download to Billing' instructions on page 4 of this document. This will complete the loop for billing purposes (make sure to complete this whole process).
- After you have finished Current Use in VTPIE, go back to Grand List Management>Upload Assessment Information
- On the down arrow next to the upload click 'Create Grand List'
- After the Grand List has been created, click the down arrow next to the upload and select 'View Grand List'
- This will bring you to a new screen where on the Reports menu in the right corner you can click and select 'Grand List 411 Summary'
- A 411 from VTPIE will generate, you should also print a 411 in your NEMRC 2026 As Billed Grand List and compare the two documents to be sure everything matches in both places. See 'Town Instructions for reconciling your NEMRC 411 to your VTPIE 411' on page 5 of this document.

## Once your 411s match between VTPIE and NEMRC complete the following steps to submit your August 15 Filing

- In your 2026 As Billed NEMRC Grand List, on the main menu click, 'R. Reports
- Click '4. Form 411'
- In the middle of the screen be sure you have answered the questions regarding Personal Property in your town.
- Print or save your 411
- After a pop up will appear, choose **Submit your 411 electronically to the state.** Select 'OK'
- Wait until you receive a pop message that tells you your submission was successful.
- Upload from your 2026 As Billed NEMRC Grand List to (instructions on page 3 of this document, bear in mind these are general directions, but in this case, you will be using the As Billed Grand List) using the 'Final As Billed Values (August Submission to PVR, use this only once)' file type in VTPIE
- Once the status of the upload in VTPIE is 'Processed', on the down arrow next to the upload click 'Create Grand List'
- After the Grand List has been created, click the down arrow next to the upload and select 'View Grand List'
- This will bring you to a new screen, click the blue 'Update Personal Property Info' button
- Answer the three questions on the pop up, and click the green 'Submit' button
- Scroll to the bottom of the page, on the right click the blue 'Submit' button
- A pop up appears, telling you if there are any outstanding errors. If there are none, click the green 'Submit Certification' button.
  - If there are outstanding errors, please reach out to your District Advisor
- After your submission is done, click on the 'Reports' menu in the right corner and select 'Grand List 411 Summary'

- A 411 from VTPIE will generate, you can save or print this for your files.
- Using the gray toolbar at the top of the screen, click 'Upload Assessment Information', this will bring you back to your list of uploads
- You should see a green check mark next to your most recent upload
  - If you don't see a green check mark, call your District Advisor

Final things to double check:

- Do your VTPIE and NEMRC 411s match?
  - If not, call your District Advisor for assistance.
- In VTPIE, do you have a green check mark next to your most recent upload labeled August Submission to PVR, use this only once?
  - If not, call your District Advisor
- Have you submitted your August 15 411 in NEMRC from your 2026 As Billed Grand List?
  - Verify your date of submission if you are unsure by clicking R. Reports, 4. Form 411, refer to the last date at the bottom of the screen above the toggle buttons. If you need assistance, call your District Advisor.

## Current Use Download to Billing Process

- Once you have saved and verified all the Current Use applications in your queue click the blue 'Download to Billing' button in the upper right corner.
- A pop up will occur that will ask if you are sure you want to Download to Billing. Select the green yes button. A green banner will appear at the top of the page when the download is complete and successful.
- Now log in to your NEMRC program. Typically, you will use your working grand list to download into billing, but after you have rolled over and created an as billed entity for the year you should log in to your as billed entity.
- On the main menu click '9. State Current Use Maintenance'
- It will ask if you have downloaded homestead declarations. If you haven't done homesteads for that week, complete that process first. Click 'Ok'
- Click 'Step 1: Get Current Use data from VTPIE'
- You will get a pop-up message telling you the download is successful. Click 'Ok'
- Click 'Step 3: Load Grand List with Current Use Values'

# Town Instructions for Reconciling Your NEMRC 411 to Your VTPIE 411

If your VTPIE 411 and NEMRC 411 do not match you need to determine why and fix the differences- here is how to isolate the problem. Your DA can also help you very quickly if you get to this point.

- Take your NEMRC 411 and your VTPIE 411 and compare the following things:
  - Parcel Count Totals
  - Total Municipal Listed Value
  - Total Homestead Value
  - Total Non-Homestead Value
  - Total Ed Listed Value
  - Be sure there is no PP Cable listed<sup>1</sup>
  - Be sure PP Cable Exemption is removed<sup>1</sup>
  - Machinery & Equipment
  - Veterans Count<sup>2</sup>
  - Veteran's 10K<sup>2</sup>
  - Total Veterans Exemption<sup>2</sup>
  - Approved VEPC
  - Voted Grandfathered<sup>3</sup>
  - Voted Non-Approved
  - Owner Pays Ed tax
  - Current Use Count<sup>4</sup>
  - Current Use Municipal Exemption<sup>4</sup>
  - Current Use Homestead Exemption<sup>4</sup>
  - Current Use Non-Homestead Exemption<sup>4</sup>
  - Current Use Ed Total Exemption<sup>4</sup>
  - Special Exemption Count<sup>5</sup>

- Special Exemption Municipal<sup>5</sup>
- Special Exemption Homestead<sup>5</sup>
- Special Exemption Non-Homestead<sup>5</sup>
- Special Exemption Ed Total<sup>5</sup>
- Partial Statutory Count<sup>6</sup>
- Partial Statutory Municipal Exemption<sup>6</sup>
- Partial Statutory Homestead Exemption<sup>6</sup>
- Partial Statutory Non-Homestead Exemption<sup>6</sup>
- Partial Statutory Total Education Exemption<sup>6</sup>
- Total Municipal Listed Value\*
- Total Homestead Listed Value\*
- Total Non-Homestead Listed Value\*
- Total Education Listed Value\*

\*Note, the total listed values on the NEMRC 411 are the total Listed Value divided by 100, whereas on the VTPIE 411 Total Listed values are not.

If you go through this list and have discrepancies and don't know how to fix them yourself, reach out to your DA they can assist you. Use the tips below to figure out where to start, see the annotated numbers as reference points.

<sup>1</sup> PP Cable: For 2026 there was a statutory update where PP Cable became Real Property and is categorized as Telecommunications Property (TC) which is a value that was issued by PVR. If you haven't updated your cable to reflect this change, please reach out to your District Advisor. There is also no Exemption for Cable anymore, so the exemption should be removed completely.

<sup>2</sup> Veterans: If your count doesn't match, you should reference the Final Approved Veterans List issued by VOVA in May. If you have removed veterans from the NEMRC program due to a change in ownership, be sure to remove the exemption in VTPIE and contact VOVA with that update. If your exemption amount is off, you should follow instructions for applying the exemption amount to your Veterans.

<sup>3</sup> Voted Grandfathered: The only properties eligible as voted grandfathered are Fire, Rescue & Ambulance. Anything else that might be in this line should be corrected in both your NEMRC and VTPIE systems, if they haven't already. If you need assistance sorting how to do that in both programs, reach out to your District Advisor.

<sup>4</sup> Current Use: If your count, or any of your totals are incorrect in the Current Use line on the 411 first thing would be to make sure you have downloaded homesteads in your NEMRC program. Next step would be to check your Current Use queue to make sure there aren't unverified applications. After those things have been done, you should complete a 'Download to Billing' cycle from VTPIE Current Use to NEMRC, being sure you load them into your grand list. If you need assistance, you should reach out to your District Advisor.

<sup>5</sup> Special Exemptions: If your count or any of your totals are incorrect between the 411s you should review all your Special Exemptions to be sure they exist in both programs and are updated in both programs. On the next screen, click the Reports menu in the upper right and select Grand List 411 Summary Report.

<sup>6</sup> Partial Statutory: If your count or any of your totals are incorrect between the 411s you can review the Partial Statutory report on the VTPIE 411. Check to make sure your partial exemption matches in both programs. If there is no parcel count listed but a value on the VTPIE 411 under Partial Statutory that likely means you have a negative exemption due to an updated value for a statutorily exempt parcel making the previous year exemption larger than the current value of the parcel. You can use your exemption report (Tax Programs>Exemptions>Reports>Exemption Report) to review what exemptions have a negative value and fix appropriately in VTPIE.

If you have made updates in VTPIE to any of the things listed above, you will need to Re-Calculate your Grand list before running a new 411. To do that go to Grand List Management>Upload Assessment Information, find your most recent upload and click the down arrow to the left of the upload, select 'Re-calculate Grand List', a pop up will occur asking if you are sure you want to do that. Then re-run your 411 using the steps above. If you change/update any of your NEMRC information that will also require a new 411 be printed.
