

## Parcel Transfers/Split Process

When you are transferring the ownership or subdividing (splitting) some land from a parcel there are a couple of tips you should consider.

1. Read the actual deed
  - a. Pay attention to Grantees name
  - b. Look for items that reference "Covenant Restricted Housing"
2. Look to see if the Grantee already owns property in your town.
  - a. If they do own property is it contiguous with the parcel they are purchasing.
  - b. Is the parcel near the town border? Does the Grantee own property in the adjoining town in which this parcel would be contiguous.

Using "# 4 Parcel Transfer' to process Transfer and subdivisions (AKA Split)

**Step 2 cont:** Enter the PTTR (Property Tax Transfer Return) accordingly.

Take time to note whether the sale was a 'Valid' or 'Invalid'. This will be helpful when you review your sales study in July. Add any additional comments about the transaction that will be helpful.

The screenshot shows the 'Transfer File Maintenance' window. The title bar says 'Transfer File Maintenance'. Below the title bar, there are two steps: 'Step 1: Choose add or edit' and 'Step 2: Select transfer or Split, then enter the transaction information below.' Under Step 2, there are radio buttons for 'Transfer' (selected) and 'Split'. Below this, there are several input fields: 'Sale/close date' (03/31/2019), 'Date recorded' (03/31/2019), 'LR Book' (empty), 'Page(s)' (empty), 'Transfer ID' (empty), 'Sale Price' (0.00), and a checked 'Valid' checkbox. Below these are three empty text boxes for 'Valid/invalid Price Reason', 'Miscellaneous Info 1', and 'Miscellaneous Info 2'. At the bottom, there is a blue instruction: 'Click on the Ok button to save your changes. To edit a parcel click on the Modify button.' and three buttons: 'Save', 'Modify', and 'Cancel'.

**Step 3:** Find the parcel that is being Transferred or Split (Subdivided) in the space provided. In this example we will be showing how to do a 'Transfer' of the entire parcel first. Click the 'Modify' button once you have the appropriate parcel selected.

The screenshot shows the 'Transfer File Maintenance' window with the same steps as the previous image. Under Step 2, the 'Transfer' radio button is still selected. The input fields now contain: 'Sale/close date' (03/31/2019), 'Date recorded' (03/31/2019), 'LR Book' (084), 'Page(s)' (101-125), 'Transfer ID' (2019005), 'Sale Price' (95,000.00), and a checked 'Valid' checkbox. The 'Valid/invalid Price Reason' field now contains the text 'Was on market for a reasonable time'. Below this are three empty text boxes for 'Miscellaneous Info 1' and 'Miscellaneous Info 2'. At the bottom, there is a blue instruction: 'Click on the Ok button to save your changes. To edit a parcel click on the Modify button.' and three buttons: 'Save', 'Modify', and 'Cancel'. The 'Modify' button is circled.

**Step 3 cont:** You will notice the new owners name will appear under the original owner. Press the 'Save' button to complete this transfer.

## Dealing with Contiguous Parcels

**Contiguous Parcels** - are defined as parcels that touch each other and the ownership is in the same name. When this happens both parcels must be combined together and taxed as one parcel. The instructions on this page shows you how to correctly use the 'Contiguous Parcel' field located on the 'Parcel Maintenance screen. In the example below Dempsey is purchasing the contiguous 5 acre lot owned by Adams. Follow the steps on page 2 to transfer the ownership from Adams to Dempsey.

|                                                                                                                                      |                                 |

|--------------------------------------------------------------------------------------------------------------------------------------|---------------------------------|

When updating the parcel that is being purchased by Dempsey change the 'Parcel Status' to 'Inactive' (NOTE: You never fill in the 'Contiguous Parcel Information' on the 'Active' parcel). Then fill in the 'Contiguous Parcel Information' with the parcel id of Dempsey's original 90 acre parcel. Click the 'Save' button once you are finished.
