

Grand List Lodging Instructions for Listers and Assessors

May 2026

Disclaimer: The information provided here is intended to be an overview only. Vermont tax statutes, regulations, Vermont Department of Taxes rulings, or court decisions supersede information presented here.

Accessibility Statement: To receive this information in an alternative format or for other accessibility requests, please contact: Vermont Department of Taxes, tax.support@vermont.gov.

Be sure all reports are correct and complete before printing your grand list. In addition to running all reports, you should run comparison reports to check for differences from last year to this year and confirm any differences.

Steps for Preparing the Grand List

Required: Post the Public Meeting Notice for the signing of the Abstract Grand List in three public places at least two days in advance.

The directions in this guide are specifically for the NEMRC grand list. For 2026, you can choose to run reports in both NEMRC and VTPIE. These directions will take you through running all reports and filing your abstract grand list using NEMRC, and then reconciling with VTPIE. This step is important because the Current use program is managed in VTPIE, while the equalization study is conducted in NEMRC. **It is critical that VTPIE and NEMRC are in sync.**

In Your NEMRC Grand List Module

Print a List of Inactive Parcels

1. Go to **R. Reports** on the main menu
2. Select **L. Inactive**
3. **Select Parcel Detail/Report Detail**
4. Click **Print**
5. Review for accuracy

Are any parcels labeled “Inactive” that should be “Active”? Once you are sure this report is accurate, it may be placed at the back of your grand list as an addendum to the grand list or just keep it for your records. Since this list will continue from year to year, you could save time by making a note as to why it is inactive in the description field (example: combined parcel with 00601).

You may want to print your Contiguous Parcel report at this time to assist in identifying those parcels that are labeled Inactive.

Print a Non-Taxable Parcel List

1. Go to **R. Reports** on the main menu
2. Select **Non-Tax Parcels**
3. Select **Report Detail/ Report Detail**
4. Click **Print**
5. Review for accuracy

This list should only include parcels that are non-taxable by law (backed by statutes). Are any parcels labeled “Non-Taxable” that should be labeled “Taxable?” Once you are sure this report is accurate, it may be placed at the back of your grand list as an addendum. This list should now include an accurate statutory reference as well as value source (Assessment/Insured Value). Correct any inaccuracies before proceeding.

Print a State-Owned Property Parcel List

6. Go to **R. Reports** on the main menu
7. Select **State Land Parcels**
8. Select **Parcel Detail/ Report Detail**
9. Click **Print**
10. Review for accuracy

This list should include only parcels that are owned by the State of Vermont. Are any parcels labeled “State-owned” that should not be? Correct any inaccuracies before proceeding. For clarity you may want to correct the name to be consistent (example: State of Vermont; or Vermont, State of), then add the department on the second line as Owner two.

Review Utility Properties

Review all Utility properties in your city/town. Be sure you have looked at the Inventory of Plant and applied your current Common Level of Appraisal (CLA) to the value before entering. This should be shown to you in the list of utility values provided by PVR. The only reason you will not update your value is if you have an appeal decision or it is a solar property as they are fixed for 25 years. If you are completing a reappraisal for 2026 then the CLA for utility electric properties applied will be 100%.

Review and apply or create Telecom newly valued Telecom Properties as indicated by PVR.

Utility and Telcom values are located in VTPIE under Municipal Information, on the bottom right-hand side of the screen: Attachments.

Call your DA with questions or if any values do not match or aren't what you expected.

Subsidized/Qualified Housing

1. Make sure you have valued the property using the income and expense spreadsheet - this only needs to be recalculated when there is a major change or reappraisal.
2. Make sure you have applied a special exemption in the grand list using the VHFA certificate indicating the percentage (up to 10%) based on number of units used for qualified housing.
3. Choose **R. Reports** from the NEMRC main menu and then **J. Special Exemptions**. Review this list for accuracy and completeness.

Covenant Restricted Housing

1. Make sure you have applied a percentage of 30-40% off their value directly in your NEMRC system.
2. Choose **R. Reports** from the NEMRC main menu and then **R. Covenant Restricted**. Review this list for accuracy and completeness

Review Subsidized and Covenant Restricted Housing (please note the difference). Please call your DA if you are unsure.

You should have received a complete list of Covenant Restricted Housing via the Listserv. If you are unsure about any of these or any Subsidized Housing, consult your DA.

VTPIE Current Use Import to NEMRC

1. Complete Current Use allocation review in VTPIE. See the guide, [How to Review and Manage Current Use Allocations in the Vermont Property Information Exchange](#).
2. Select **Download to Billing** from the VTPIE Current Use main screen.
3. In working NEMRC grand List, Select **9. Current Use Maintenance**
4. Select **1. Get Current Use from VTPIE**
5. Select **2. Current Use Reports**, print the summary report
6. Select **3. Load to Grand List**

This process is moving the exemption calculated in VTPIE onto the correct parcel in NEMRC for tax billing. You should continue to complete this task anytime you have changes to Current Use.

Reconciling Current Use Exemption between VTPIE and NEMRC

1. In the VTPIE Current Use module, click on **Reports**, select **Current Use Export**. This will generate an Excel spreadsheet
2. Compare the total exemption from the VTPIE Current Use Export report to the summary report printed in NEMRC
3. In NEMRC run a 411. Make sure the Current Use exemption on the 411 matches both the VTPIE and NEMRC reports

Print All Current Use Allocation Notices (completed in VTPIE)

1. From your VTPIE home screen, select **Grand List Management**
2. Select **Change of Appraisal Notices & Grievance**
3. Select the blue **Add** button
4. Select **Current Use Allocation - All**. (Select **All** if you wish to send a notice to all taxpayers that are enrolled in current use. If you only wish to send notices to those that changed select **Current Use Allocation**.)
5. In **Description** box, add a brief notation, e.g., First Run
6. Please review the Response Text box and update the text with local information and grievance dates
7. Select the green **Save** button
8. Select drop down and click **View Notices**. Review accuracy of content, grievance dates, etc.
9. Select **Reports** in the upper right corner. Print **All Notices** and **Certificate of Mailing** by selecting the small arrow to the left of the notice type that you created. You may also use this drop-down arrow to edit the notice if needed once it has been created.
10. Allocation notices are a two-page notice; you will want to print double sided, if possible.

Print Veterans Exemptions

1. Go to **R. Reports** on the main menu

2. Select **C. Veterans Exemptions**
3. Click **Print**
4. Review for accuracy

Vermont Office of Veterans Affairs (VOVA) provided a list of all eligible veterans for 2026, which was posted to Listserv. The NEMRC grand list should be updated to match this list. Veterans have been loaded into VTPIE. However, they are loaded at the \$10,000 State minimum. They will need to be adjusted in the exemption section VTPIE to your total exemption value if you allow more than \$10,000. Consult your DA for assistance.

Place this report at the back of your grand list as an addendum. Contact PVR or VOVA if you did not receive the list via email from VOVA. Check to see that all exempt amounts are correct and consistent. Once you are sure this report is accurate, it may be placed at the back of your grand list as an addendum.

Review the Transfer Report

Review your transfer report in NEMRC for the past year to make sure that all transfers have been entered to reflect April 1 ownership. (This may also be completed with another transfer tracking method that you may have in your office-spreadsheet etc.)

1. Go to **R. Reports** on the main menu
2. Select **9. Transfers Report**
3. Choose dates for the prior year's April 1 to this year's April 1.
4. Review for accuracy in your grand list.

Re-index Your Files

Go to **X. Index Data Files** on the main menu. Review Index data files twice to be sure it indexed everything. This puts everything you did in order again.

Change of Appraisal Report Checks Before Printing

Print Three Types of Grievance Reports: 1) Real Value, 2) Homestead Changes, and 3) Housesite Changes

1. Go to **R. Reports** on the main menu
2. Select **7. Grievance Processes**
3. Click the **Grievance** tab at the top of the page

4. Under **Action**, click **Initial Notice of Change**
5. Under **Format**, click **Report**
6. Under **Grievance Type**, select **Real/Equipment**. Note: When you run the homestead report, you will select **Homestead** here and when you run the housesite report, you will select **Housesite** here.
7. Under Include **Remarks**, click **Yes**

Each of these three reports will be printed as a separate report, although some of the same parcels will be in more than one report. Save the reports for your annual record-keeping and for grievance day. Review these reports with your file for expected changes. Do you have them all? Are they accurate?

The report provides you with a list of all properties flagged to receive notice. Review this with your file or list of changes and make corrections. Add comments in parcel maintenance if it is missing from the report. This comment will be printed on the Change of Appraisal Notice.

Reminder – Be sure all reports look correct and complete before you print your grand list.

Print a 411

1. Go to **R. Reports** on the main menu.
2. Select **4. Form 411**. This form will be signed and become part of your grand list. Review for accuracy. Make sure the property count looks correct, exemptions are there, and estimated value is reasonable. Compare with reconciliation if you have one. Be sure the answers are correct regarding taxability of personal property in your town. Review exemption information on this and the nontaxable list.
3. When you are prompted to send Form 411 to the State, **wait until your grand list is final and/or it is close to August 15**.

Reconcile VTPIE and NEMRC

You should now reconcile to make sure VTPIE and NEMRC match. Do not skip this step. Call your DA if you need help.

Upload a file from NEMRC to VTPIE

1. In NEMRC, choose **10. Upload to VTPIE**
2. Select **1. Upload to VTPIE**
3. Summary page will appear, and you can click out of it.
4. A pop-up indicated that you have successfully uploaded to VTPIE.

Steps for Preparing the Grand List in VTPIE

1. Click on **Grand List Management**
2. Select **Upload Assessment Information**
3. Once the status is “processed” you can move on to the next step. This may require up to five minutes and a browser refresh. Click F5 to refresh.
4. Once your upload is processed, click the **down-arrow** to the left of the upload.
5. Click **Create Grand List**
6. Click **View Grand List**

Each time you upload new assessment information to VTPIE, you need to ‘Create Grand List’ to view your 411.

Print a 411 from VTPIE to compare to NEMRC 411

1. On the VTPIE home screen, select **Grand List Management**
2. Click **Upload Assessment Information**
3. On your most recent upload, use the arrow on the left and select **View Grand List**
4. Under the Reports menu in the upper-right corner, select **Grand List 411 Summary**

If all numbers match at this point, you are reconciled. If numbers don’t match, running the reports in VTPIE can help isolate the cause.

Use this summary process to produce reports in VTPIE. The [2025 Grand List Lodging Instructions for Listers and Assessors](#) can be used for 2026.

Print Your Certificate of Mailing (in NEMRC)

1. Go to **R. Reports** on the main menu
2. Click **7. Grievance Processes**
3. Click **Grievance** tab.
4. Under **Action**, click **Initial Notice of Change**
5. Under **Format**, click **Certificate of Mailing**

6. Take this Certificate of Mailing to your postmaster to be sure they will accept this format. Compare this list with your Change of Appraisal Report and Notices to make sure all addresses are on this list.

Print Your Abstract Grand List (in NEMRC or VTPIE if you choose but these directions are for NEMRC printing)

1. Go to **R. Reports** on the main menu
2. Click **1. Grand List**
3. Click **Report Detail** for the type of report and **Owner** for name order

This is to be lodged with your town clerk by June 4 or June 25, depending on town population (unless you filed and received an extension). You may want to print one working copy for your office to mark changes in red to review next year.

Print Your Signature Pages to Use for Lodging of the Grand List

Print in either In NEMRC or VTPIE. These directions are for NEMRC printing.

Go to R. Reports on the main menu

1. Click **1. Grand List**
2. Find and print **Signatures Page Only** in the middle of the page. Sign all pages (with one exception) and attach them to your grand list. Exception: Certificate of No Appeals Pending will become part of your grand list but will not be signed until the following February (if there are no appeals pending) and become part of your grand list.

Table: Where Signature Pages Go

Document	Instructions
Certificate of Grand List	This becomes part of your abstract grand list document
Notice to Taxpayers	Post in five public places, one of which must be the town clerk's office. One copy of this becomes part of your abstract grand list document.

Document	Instructions
Town/City Clerk's Certificate	This becomes part of your abstract grand list document.
Record of Lister Notices Posted	This form is part of the Abstract Grand List.
Certificate: No Appeal or Suit Pending	This becomes part of your (final) grand list document and remains unsigned until at least the first Tuesday of February of the following year.
Lister's Oath	This becomes part of your (final) grand list document

Copy and Prepare to Post the Notice to Taxpayers

This notice should be posted in five public places—the town office, plus four other public locations within or outside your town.

Lodge Grand List with Town Clerk

The town clerk signs Certificate in the signature pages, acknowledging receipt of grand list on or before June 4 or June 25 depending on town population (unless you filed and received an extension). The clerk also signs the 411 in the grand list. Nothing is filed with PVR until August 15. The abstract grand list and signature pages go in the vault and stay there indefinitely.

Before Printing Your Change of Appraisal Notices

Check your notice to be sure that all the necessary data for the current year is in the notice and is correct.

1. Go to **R. Reports** on the main menu
2. Click **Grievance Processes**
3. Click the **Grievance** tab at the top of the page
4. Under **Action**, click **Initial Notice of Change**
5. Under **Format**, click **Notice**
6. Click **Edit Notice**. Then click through the sections to edit the document. Be sure to change the date of the notice on Section 1, date of grievances, times of grievances, and listers if they have changed. These are all in Sections 2 and 3.

Print an individual notice to check the overall wording and look at the notice before you print all of them.

1. Go to **R. Reports** on the main menu
2. Click **7. Grievance Processes**
3. Click the **Grievance** tab at the top of the page
4. Under **Action**, click **Initial Notice of Change**
5. Under **Format**, click **Notice**
6. Click the **General** tab at the top of the page
7. Click **Individual** in the right-hand corner of the **General** tab
8. Find a property that you know has a grievance flag on it (by entering name or parcel ID in the parcel selection area) and select **Preview** or **Print**.
9. Check for accuracy and make corrections. Then go back in, choose **All** instead of Individual, then **Print**.

Print Your Change of Appraisal Notices

Print all notices and check for accuracy on both previous and new values. Be sure all addresses are on the Certificate of Mailing and that notices are in the correct order with the certificate for the postmaster to check.

Notice of Assessment: Personal Property Inventory Filed

Prepare this only if your town taxes business personal property machinery and equipment or inventory. This is sent with the change of appraisal notices and can now be produced using the NEMRC program. If you tax personal property in your town, you can record values and flag for notices of change of assessment in a similar fashion as you do with real property.

Preparing for Mailing

Check each piece and keep them in order consistent with your Certificate of Mailing. Use labels or window envelopes to ease the process.

Post Notices and Mail All Notices

Post and mail notices the same day that you lodge your abstract grand list. It should be done on or before June 4 or June 24 depending on the population of your town. Begin Grievance Hearings no less than 14 days after mailing notices.

Grievance Process

Grievance is a right by Vermont statute. To help property owners understand the process better, direct them to the Tax Department webpage, [How to File an Appeal](#).

Municipal Response to Grievance Requests

Procedure for Listers, Boards of Civil Authority, and Town Clerks

Listers must represent and defend their values at listers grievances and BCA hearings. See [32 V.S.A. § 4221](#). Listers may also be designated by the selectboard as a town representative to defend values at the Superior Court, Supreme Court, and State Board of Appraisers. See [32 V.S.A. § 4461](#).

Any taxpayer can grieve their assessment in any year. The only exception is when a value has been set by the State Board or Court Order for three years and there have been no major changes to the property or a town-wide reappraisal since.

Any value change requires a change of appraisal individual notice. Public notice is also required every year to allow any other taxpayers to grieve. See [32 V.S.A. § 4341](#) and [§ 4111](#).

If taxpayers come in throughout the year requesting a grievance you can:

- Schedule a visit to see if a change is warranted before grievance. If you change the value before grievance day, the property owner will receive a change of appraisal notice and still have full grievance rights.
- As a courtesy, flag the parcel to notify the taxpayer of grievance dates and times. Note in the comment field that the grievance notice is sent per property owner's request. Listers should be in the office on a regular basis between the time notices are mailed and grievance hearings start. This time is important to answer taxpayer questions and schedule grievance appointments.
- Schedule appointments for hearings. A time limit of 15-20 minutes is suggested. Allow the taxpayer to do the talking. Listen, take notes, ask questions, and answer questions pertinent to the appeal.

When a Taxpayer Submits a Grievance

What You Should Not Do

- Argue with the taxpayer
- Make or suggest any action that may be taken

What You Should Do

- Schedule grievance times
- Ask for something in writing
- Allow taxpayers to present their cases
- Limit the time frame (approx. 15 minutes)
- Answer reasonable questions from the taxpayer
- Listen and take notes
- Remain open-minded
- Advise the taxpayer of how and when they will be notified
- Schedule a site visit if necessary and if time allows

Be mindful of the fact that grievance is an individual process. Have an open mind concerning the fair market value of that property as of April 1 of the appeal year. This may or may not be equal to your assessed value.

Follow-up Actions

NEMRC Instructions are summarized here. Follow the instructions in the exact order.

1. Go into each parcel that grieved in NEMRC parcel maintenance.
2. Click the **Change Appraisal/Contract** tab.
3. Click the button that is appropriate for your decision: **No Result**, **Denied**, or **Approved**. Enter your comments in the comment field below.
4. Do not remove the original flags.

Next, if you have a MicroSolve linked to NEMRC, do the following:

1. Go to the main menu and choose **Annual Rollover**
2. Click **Perform** on result of grievance approval only (DO NOT CLICK ANY ADDITIONAL ROLL-OVER OPTIONS) and then **Perform Now**. This will copy your current value to the previous field on those properties you want to change
3. Click **OK**

4. Go into MicroSolve and make changes to the value as appropriate, and run a new cost sheet. New values will automatically go to NEMRC when you run cost.
5. Go to **R. Reports** on the main menu
6. Click **Grievance Processes**
7. Click the **Grievance** tab at the top
8. Under **Action**, click **Result of Grievance**
9. Under **Format**, click **Notice**
10. Under **Include Remarks**, click **YES** and print results
11. Check each notice for accuracy

Print a Certificate of Mailing for the Results of the Grievance

1. Go to **R. Reports** at the main menu
2. Click **7. Grievance Processes**
3. Click the **Grievance** tab
4. Under **Action**, click **Result of Grievance**
5. Under **Format**, click **Certificate of Mailing** and print your results

Preparing for Mailing

Check each and keep them in order consistent with your Certificate of Mailing. Use labels or window envelopes to ease the process. Mail notices within seven days of hearing the last grievance.

File Your Grand List with PVR

You may choose to print a new grand list or add addenda to the original abstract grand list to serve as your amended final grand list. Both the abstract with the attachments and the reprinted final grand list should be kept by the town clerk in the vault.

File your final grand list electronically with Property Valuation and Review by August 15. This process will send both the electronic 411 and electronic grand list:

1. Go to **R. Reports** on the main page
2. Click **4. 411**.
3. Click **Print** or **Preview**
4. Click **File via Internet**

You should receive a message letting you know it was successful. If you do not receive this message or receive another message, please contact your district advisor or NEMRC for assistance.

Annual Rollover Process

Create a New “As Billed” Grand List Entity

Before you proceed creating a new entity, check what is the next available entity number. Click 6 on the main menu at Make New Entity. When prompted to create a backup, choose Yes. Indicate that this is going to be a Lodged, Billed, or Reappraisal entity. Most of the time you will be doing this to produce tax bills, so choose **Billed Entity**. Make sure the town/city name is in the name of Entity.

Be certain of the entity number of this grand list before you do this, as well as how you want the name of the entity to read.

This new entity will be a duplicate copy of the grand list you have just completed and will typically show up at the bottom of all your entities. You will now complete any further work for this year in the “As Billed” (bottom) entity (any errors and omissions and continued downloads for current Use or homestead declarations). Any new work relating to the upcoming year you will complete in the top (typically #1) “Working” entity. Any time you create a new grand list entity, you should go into password maintenance on the old or “as billed” entity, create a new password for this entity, click Supervisor Level Access before saving the password, and delete the old password. This will help prevent an error in entering the wrong grand list when making any changes.

The process known as “Rollover” is part of this process, and your grievance flags, current use values, and homestead flags will be removed from your working grand list. You may now access the working entity (#1 on top) to make new changes (PTTRs/Values) that will affect the next year’s grand list.

If you are using the MicroSolve CAMA program, this would also be a good time to go into MicroSolve and make a backup as well as creating a freeze file for your CAMA data. You should call NEMRC if you need assistance with this process.

Freezing a Grand List

You may choose to freeze the database by clicking on **E. Create Grand List Copy** on the main menu. This procedure will allow you to make up to 10 copies of your grand list at various times. These copies can be used when running reports. Make sure to name it so you know exactly what it is referring to. (Examples: “Abstract Lodging 2026” or “After Grievance 2026.”

Establish a Process

Discuss with your CAMA vendor how uploads to VTPIE and any changes will work now and going forward, paying special attention to errors, omissions, and appeals. Also speak to your vendor about CAMA requirements and frequency of available uploads.
